

# DY30-1 | DY30-2 | DY30-3

## DIGITAL INSULATION RESISTANCE TESTER

- Three test voltages, measure insulation resistance to 20Gohms
- AC voltage measurement to 600V
- DY30-3 with low voltage measurement from 15V to 100V for telecommunication industry and elevator maintainance
- Low resistance buzzer
- Data hold, auto range
- Low battery warning
- Complete with test wires, heavy duty nylon bay and six 1.5V AA batteries

**DY30-1**  
Insulation Resistance Tester(1000V)

**DY30-2**  
Insulation Resistance Tester(2500V)

**DY30-3**  
Insulation Resistance Tester(100V)  
for telecommunication industry
